47. *The game of Monopoly, originally designed as a satire on the harms from land-grabbing, is based on accumulating unearned income to buckle the Lorenz curve into a right angle. In the game, everyone starts with the same amount of money. In real life, an initial seed is needed, a nidus for money to coalesce around, which is not available to those struggling with subsistence.*

https://www.researchgate.net/publication/254734365_The_Dragons_of_Inaction_Psychological_Barriers_That_Limit_Climate_Change_Mitigation_and_Adaptation

The seven dragons of inaction:

- *being unaware*
- *ideological influences*
- *comparisons*
- *sunk costs*
- *discredence*
- *perceived risk*
- *limited behaviour*
